Education

- **Sir Padampat Singhania University** — Udaipur,India
  Computer Science and Engineering; — *August 2019 - July 2023*

Skills Summary

- **Languages**: HTML, CSS, Javascript, AJAX, Ruby, SQL
- **Frameworks**: Ruby on Rails
- **Databases**: MySQL, PostgreSQL
- **Tools**: Trello, Postman, Git, Slack

Experience

- **Tudip Digital** — Pune, Maharashtra
  Software Developer — *Nov 2023 - Present*
  - Developed and maintained dynamic, responsive web applications using the **Ruby on Rails** framework, leveraging the **MVC architecture** to build clean, modular, and scalable features.
  - Upgraded a **Ruby on Rails** application from version 6.1 to 7.2, ensuring full compatibility with new features and resolving all deprecation issues.
  - Designed and implemented interactive, user-friendly web pages using HTML, CSS, JavaScript, and AJAX, optimizing performance and ensuring cross-browser compatibility.
  - Diagnosed, debugged, and resolved application issues, delivering timely fixes and minimizing system downtime.

Projects

- **Eatster - Full-Stack Online Food Delivery Platform (Ruby, Rails, HTML, CSS, Javscript, SQL)**:
  - Built the full-stack platform using **Ruby on Rails (MVC) with ERB**, HTML, CSS, JavaScript, and AJAX, delivering a responsive and seamless user experience.
  - Implemented subscription plans (Basic, Standard, Premium) and integrated **REST and Grape APIs** to enable smooth data flow between frontend and backend.
  - Developed key features such as **autocomplete search** and image management using Paperclip, improving usability and efficient media handling.
  - Supported **production deployments**, provided release support, and collaborated with the team via Slack to ensure timely delivery and stable releases.
- **Brightside E-Learning Platform (Ruby, Rails, MYSQL)**:
  - Developed and maintained the platform using **Ruby on Rails (MVC)** and **MySQL**, ensuring reliable performance and scalable architecture.
  - **Upgraded** the application from **Rails 4.2.8 to 7.2.2**, resolving compatibility issues, fixing deprecations, and improving overall system stability.
  - Implemented JSON API–based integrations to enable smooth communication between services and enhance data exchange efficiency.

Certificates

- Certificate in Full Stack Development from **UpGrad.**
- **HackerRank** SQL Certification (Intermediate Level)

Achivements

- Awarded First Prize for writing an outstanding **technical paper.**
- Received Third Position at a **Hackathon** competition.
